Sales Prediction & Forecast Report

RevenueRadar Retail Pvt. Ltd.

01. REVENUE FORECAST - NEXT 90 DAYS

Next Month Forecast	INR 16.82M	+0.1% projected growth
Next Quarter Forecast	INR 50.53M	Cumulative 3-month projection
Avg Monthly Baseline	INR 16.14M	3-month rolling average

Based on historical trends, revenue is expected to grow by 0.1% month-over-month. The next quarter projection stands at INR 50.53M. These projections assume no major market disruptions.

02. CUSTOMER CHURN FORECAST

Current Churn Rate: 88.7% (28,074 of 31,652 customers at risk)

A total of 28,074 customers have not placed an order in the last 90 days and are classified as 'at risk of churning'. This represents 88.7% of the total customer base. Proactive engagement (email campaigns, discounts) can recover an estimated 20-30% of these customers.

Estimated Revenue at Risk from Churn: INR 372.16M (based on average customer lifetime value).

03. CATEGORY-WISE GROWTH FORECAST

Category	Last Month (INR)	Projected (INR)
Appliances	INR 4.88M	INR 4.92M
Beauty	INR 0.28M	INR 0.28M
Electronics	INR 5.58M	INR 5.62M
Fashion	INR 1.50M	INR 1.50M
